THURSDAY, October 21, 1762.

[N^o. 911.]

Great JOY to the Nation!

A PRINCE OF WALES is Born.

GOD Save the KING.

St. James's, August 12, 1762.

THIS MORNING, at half an Hour after VII, the Queen was happily Delivered of a PRINCE. Her Royal Highness the Princess Dowager of Wales, several Lords of his Majesty's most honourable Privy Council, and the Ladies of her Majesty's Bedchamber, being Present.

This great and important News was immediately made known to the Town by the Firing of the Tower Guns; and the Privy Council being assembled as soon as possible thereupon, it was ordered, that a Form of Thanksgiving, for the Queen's safe Delivery of a Prince, should be prepared by his Grace the Archbishop of Canterbury, to be used within the Bills of Mortality on Sunday next, and throughout the King's Dominions the Sunday after the respective Ministers shall receive the same.

Her Majesty is, God be praised, as well as possible in her present Condition; and the young Prince is in perfect Health.

London, August 14. Yesterday Messengers were dispatched to the different Courts, to notify her Majesty's happy Delivery of a Prince.

The Person that waited on the King with the News of her Majesty's being delivered of a Prince, received a Present of a 500 l. Bank Bill.

Yesterday there was a numerous and splendid Court at St. James's to compliment his Majesty on the safe Delivery of the Queen, and the Birth of a Prince.

It is ordered by his Majesty in Council, That in the Morning and Evening Prayers, in the Litany, and in all other Parts of the Publick Service, as well in the occasional Offices, as in the Book of Common Prayer, where the Royal Family is appointed to be particularly prayed for, the following Form and Order shall be observed, viz.

"Our Gracious Queen Charlotte, His Royal Highness the Prince, Her Royal Highness the Princess Dowager of Wales, and all the Royal Family."

We hear that his Royal Highness the Prince will be publicly baptized in the Chapel Royal on the 8th of September, being the Day on which the Royal Wedding was celebrated there.

St. James's, August 17. The King has been pleased to order Letters Patent to pass under the Great Seal of Great-Britain, for creating his Royal Highness the Prince of Great-Britain (Electoral Prince of Brunswick-Lunenburg, Duke of Cornwall and Rothsay, Earl of Carrick, Baron of Renfrew, Lord of the Isles, and Great Steward of Scotland) Prince of Wales, and Earl of Chester.

PETERSBURGH, July 10.

THE Senate assembled Yesterday, and after solemn Deliberation, it was determined that Peter the Third should be deposed. Count Rosamowsky, late Commander in Chief of the Cossacks, Count Panin, Governor of the Great Duke, Son to Peter the Third, and Field Marshal Butlerlin, undertook to execute the Resolution of the Senate: In Consequence whereof Count Rosamowsky went to the Castle of Oranjebaum, and there seized upon the Emperor. Prince George of Holstein Gottorp, upon the first Alarm, made some Resistance at the Head of his Regiment, but on his receiving a violent Wound on the Head with a Sabre, he was taken Prisoner.

July 12. The principal Circumstances that attended the late extraordinary Revolution are as follow:

The Emperor had been for several Days at his Country Seat at Oranjebaum, and the Empress at another, called Petershoff. On the 9th Instant, at six in the Morning, the Empress arrived in this City, and immediately repaired to the Palace; where, after assembling the Guards, she desired them to support her; and they accordingly proclaimed her Empress of all the Russias, at the same Time declaring the Emperor, Peter the Third, to be deposed.

After this Proclamation was made, during which Time the Gates of the City were kept shut, the new Sovereign went to the Church of Kasansky, where, after Divine Service, all the Grandees of the Empire took the Oath of Fidelity to her; to whom she declared, that she had taken the Reins of Government purely for the good of the Country. At the Beginning of these Ceremonies, in order to prevent Disturbances, her Imperial Majesty thought proper to secure the Person of Prince George of Holstein.

Other necessary Precautions being taken, the Empress, dressed in the Uniform of the Guards, and wearing a blue Ribbon, mounted her Horse, and put herself at the Head of 9 or 10,000 Men, and marched to Oranjebaum, but the Emperor was not there. That Prince was gone to Petershoff, with an Intent to dine there; but when he arrived, he was greatly surprised to find that the Empress was not there, and hearing that she set out early in the Morning for Petersburg, dispatched several Couriers, one after another, to know the Reason of her going, but none of them returned.

At length some Grenadiers, disguised like Peasants, found Means to get to Petershoff, and informed the Emperor of what had happened. He got into a Yacht, and would have made his Escape to Cronstadt, but found the Gates shut against him, and was obliged to return to Oranjebaum, where, in order to secure himself, he got together as many Peasants as he could, and entrenched himself.

Thus was this memorable Revolution brought about, supported by many of the Grandees of the Empire. Several of the Favourites of the late Emperor have proved the unhappy Victims of it; but Prudence will not permit mentioning their Names.

Hamburg, August 6. The Russian Lieutenant General Woyekow hath published an Ordonnance at Konigsberg, dated the 16th of July, intimating, 'That though, by Virtue of the Peace concluded with the King of Prussia, he had published, on the 3d of the said Month, that the Inhabitants of Prussia were discharged from their Oath of Fidelity to Russia, and were to return to their Allegiance to his Prussian Majesty; he, nevertheless by these Presents gave them Notice, by Command of the Empress Catherine II. that what he then published was now annulled, and ceased to have any Effect; so that the Inhabitants were to return under the Domination of Russia, &c.

Berlin, August 3. To efface the Impression made by General Woyekow's Notification at Konigsberg, the following Article is inserted in our Gazette:

'As by the great Change that hath happened in the Empire of Russia, her Imperial Majesty Catherine II. ascended the Throne on the 9th of July; her said Imperial Majesty hath notified her Accession to the King, by a Letter filled with the strongest Assurances of Friendship; and hath sent fresh Credentials to Prince Repnin, as her Minister Plenipotentiary.

'Her Imperial Majesty hath moreover declared to Baron Goltz, the King's minister at Petersburg, as well as to the King himself, by General Count Czernichew, and by her Envoy Prince Repnin, That she was firmly resolved to observe inviolably, in all Points, the perpetual Peace concluded under the preceding Reign, on the 5th of May: That nevertheless she had thought proper to bring back to Russia, by the nearest Roads, all her Troops in Silesia, Pomerania and Prussia.

'Accordingly, the Troops under General Czernichew separated from the King's Army on the 22d of July; they have already passed the Oder, and entered Poland. Their Expences have been defrayed in their Retreat, as if they were still Auxiliaries; and they appeared extremely satisfied with the Treatment they met with in all the King's Dominions while they staid.

'The Russian Troops who were posted near Anclam, have repassed the Oder; and those which were in the further Pomerania, are also preparing to march towards Poland.

Dantzick, July 26. The News of the Accession of the Empress Catherine to the Throne of Russia, has been presently followed by that of the deposed Emperor's Death. His Body has been placed on a Bed of State, and the Empress has already named Commissioners to regulate whatever concerns the Mourning to be worn for him, which Regulation is printed, and has been sent to her Majesty's Ministers at foreign Courts.

Berlin, July 31. The Loss the Enemy sustained the 21st of this Month when our Troops dislodged them from divers

Posts in the Mountains of Bohemia, was about 3000 Men in Killed, Deferters and Prisoners. The latter amount to upwards of 1000, and amongst them are 73 Officers. We have also taken 14 Pieces of Cannon. Our Loss, when it is considered that the Enemy had the Advantage of Ground, and our Troops had the most difficult Passes to get through, may be reckoned inconsiderable; it does not amount to 600 Men, including the Killed, Wounded, and Missing.

Petersburgh, July 7. O. S. This Day a Declaration was published here by the Empress, giving an Account of the Decease of the late Emperor Peter the Third.

L O N D O N, August 7.

Wednesday a Cartel Ship arrived at Portsmouth, with the Garrison of St. John's in Newfoundland on board.

Letters from Bourdeaux, by Yesterday's Flanders Mail, advise, that several Ships which were in the Harbour are taken up for Transports, to carry a Number of Troops for Newfoundland, a great Part of which were already embarked. They are to be conveyed by three Men of War.

By a Letter from a Gentleman at Oporto, which came by Yesterday's Lisbon Mail, we are informed that every Thing was very quiet there; and since the Arrival of our Troops at that Place, all Fears of the Spaniards were entirely subdued.

August 10. Letters from France by the Flanders Mail, mention, that the Transports, with French Troops for Newfoundland, got out of Bourdeaux the 31st ult. but being chased by some of our Men of War, were obliged to put back.

Extract of a Letter from Portsmouth, August 8.

"On Saturday his Majesty's Ships Bedford, Superbe, Shrewsbury and Minerva, sailed from Spithead to Newfoundland, to intercept the French Ships coming Home from thence."

The Maryland Packet, from Virginia, is arrived in the River. She was a missing Ship.

Extract of a Letter from Gibraltar, June 19.

"The Emperor of Morocco being affronted with the English, the Fleet and Garrison suffer very much, having no Sort of Fruit, Beef, Mutton, Fowls, nor any Sort of fresh Provisions (now Spain is shut against us) but from thence. A Gentleman sailed Yesterday to wait upon the Emperor's Son, and it is hoped, through his Application, Things may be brought about again."

By Letters from Paris, dated the 5th Instant, we have Advice, that three Transports, with Troops, got out from Bourdeaux the 1st Instant at Night, and as they have heard nothing of them since, it is thought they have proceeded on their Voyage. There were four more watching for the same Opportunity.

In the Manifesto of the Empress of Russia, dated the 9th of July, N. S. published in the Petersburg Gazette of the 13th, we find *Its Enemies*, substituted in the Room of the Words, *Its greatest Enemy*, which terminated the second Motive on the first Appearance of the Manifesto.

Yesterday Colonel Ligonier arrived in Town from Germany, with the Standards taken from the French the 23d of July, in the Action of Lutternberg.

The King of Portugal is sitting out 4 new Men of War; and has authorised two of his Officers to raise each of them a Regiment of Spanish Deferters.

Private Letters by the Mails of Thursday say, that the King of Prussia, on receiving the News of the Death of the Emperor of Russia, retired into his Tent for several Hours, not permitting any Person to come near him.

The surprizing Similitude of the respective Fates of those two unfortunate Princes, King Edward II. of England, deposed by his Royal Consort, and Peter III. Emperor of Russia, has been already mentioned; to which may be added, that as the last named Prince is since dead of a Disorder in his Bowels, the Parallel becomes still nearer, and may serve to confirm the Truth of the Observation of that unhappy Monarch, King Charles I. who was heard to say, "There is but a short Interval between the Imprisonment of Princes, and their Graves."

August 17. Yesterday an Express arrived from the King of Prussia, which, it is said, brings certain Advice, that he was going to besiege Schweidnitz, in which was a Garrison of 10,000 Men; and that Prince Henry, with the Army under his Command, was in March to besiege Dresden.

According to many Accounts from Russia, the late Emperor's Religion was his Ruin. He had caused a Lutheran Church to be built at Oranjebaum, where he often lately attended Divine Service, and neglected going to the national Greek Church: This was looked upon with an evil Eye by too many Russian Prelates, and was the Rock he split upon.

Private Letters from Russia by Friday's Dutch Mail advise, that amongst the late Emperor's Papers, a Letter was found, wrote with the King of Prussia's own Hand, exhorting the Emperor to make no Alterations in the Greek Religion, and to have no Difference with his Senate.

The Margaret, Robinson, from Virginia to London, is taken, and carried into St. Maloes.

The Hermione Prize turns out prodigiously richer than was at first expected; for we are told, that upon examining the Chests of Treasure, after taking off one Third of the Contents, or Depth, which was Silver, the remaining Part proves to be Gold Dust; which unexpected Addition will render it the richest Capture ever brought to this Kingdom.

August 19. Letters from Prince Ferdinand's Camp, advise, that the two Armies were in such a Position, that a General Engagement between them could hardly be avoided.

Yesterday on Examination of the Money from the Hermione at the Bank, a Chest of Gold Doubloons was found,

which weighed the exact Weight of the Silver. This, with the Gold found before, makes the Prize about 10,000 l. more valuable; and they have not yet examined above one Half, so in all probability they may find more.

An Account is received that the Ferrol Squadron is failed, with Troops on board, supposed for Newfoundland, and that Admiral Hawke was failed after them.

The King George Packet-Boat, Captain Brown, is arrived at Falmouth from Lisbon, in 17 Days. She brings Letters from Lisbon, dated the 31st ult. which advise, that the Marquis de Marealvo, with the several Portuguese Regiments, had marched towards the Borders, the Spaniards upon the Frontiers retreated with great Precipitation from Villa Real, so that the Province of Minho and Oporto are covered by these Troops; their advanced Guards reach to Villa Buoca. Almeida is not yet invested; that Place is sufficiently provided with all Necessaries. The extreme hot Season has rendered the Spaniards inactive, being melted in their Tents. The Troops of Portugal are in a cooler Situation, being in Quarters of Cantonment.

Yesterday another Chest of Gold Doubloons was found among the Hermione's Prize-Money at the Bank.

WILLIAMSBURG, Oct. 8.

WHEREAS I have received a Letter from his Excellency Sir Jeffery Amherst, dated New-York, September, 26th, in Answer to that which I wrote lately, requesting a Convoy for the Trade of this Country: I have thought proper, by the Advice of the Council, and for the Satisfaction of the Publick, to publish the following Extract from it.

FRANCIS FAUQUIER.

"The unexpected Arrival of the Enemy at Newfoundland, the Necessity of Dislodging them from thence before Winter sets in, and the slender Force Lord Colvill had with him to assist in effecting that Service, obliged me to send him all the Succours I possibly could: Without the *Gosport* his Lordship could not have proceeded from Halifax, and as it was very uncertain whether any Ships from England would arrive in Time, I thought it necessary to order the *Enterprise* to join his Lordship; but at the same Time directed Capt. Houlton to return immediately to Virginia, in order to convey the Homeward-bound Trade, if he received certain Intelligence that Lord Colvill was joined by any Ships from Europe, to make his Force superior to that of the Enemy: I likewise wrote to his Lordship, desiring a Ship of War might be ordered for the above Service, as soon as one could be spared; and on the Receipt of your Letter Yesterday, I repeated my Request, and forwarded it by the *Porcupine* Sloop, the Captain of which has my Orders to make the utmost Dispatch in joining his Lordship, so that I make no Doubt but that the *Gosport* or *Enterprise* are now on their Way back, or that Lord Colvill will send some other Vessel, so soon as the Service will permit him."

PHILADELPHIA, October 14.

In several late Letters, by Captain Dee from Liverpool, mention is made of a Peace being at no great Distance, between England, France and Spain.

By Captain Mills, from Providence, we learn, that the General Shirley Privateer, Captain French, of that Port, has taken, and carried in there, two large French Frigates, said to be pierced for 24 Guns each, but mounted only 12. They were bound to Old France, from the Cape, and said to be immensely rich; their Cargoes Sugar and Coffee, and a great Quantity of Indigo.

The Privateer Flying Harlequin, Capt. Wright, of New-York, has sent in there a French Brig, from Cape-François for Bourdeaux; her Cargoe Sugar, Coffee, and some Indigo; she failed in Company with 19 Sail, under Convoy of six Ships of the Line, having on board the different Vessels the greatest Part of Anstruther's Regiment, lately taken and carried into the Cape, on their Voyage to the Havannah.

Extra^d of a Letter from New-York, Oct. 11.

"The Rhode-Island Packet-Boat is just arrived, and brings an Account, that they had Advice there, Via Boston, that upon Lord Colvill's appearing off of St. John's, the French Admiral sent out a Flag of Truce, desiring a free Passage for his Ships and Garrison, and that he would, on that Condition, deliver up the Town; but Lord Colvill refused his Demand, and sent him for Answer, he would have both Town and Shipping; and the Master of the Packet-Boat says, That Lord Colvill had got Possession of all. The Packet-Boat left Rhode-Island last Saturday."—We hope the above will be confirmed.

ANNAPOLIS, October 21.

Last Thursday Night and Friday Forenoon, we had a Northeasterly Storm. About IV o'Clock on Friday Morning the *Snow Peace*, Capt. Thomas Lovering, bound for Biddeford, being then in the Bay, was forced ashore about Two Leagues above the Mouth of Patuxent, and Bilged: Her Cargo consisted of 211 Hogheads of Tobacco, 22 Tons of Bar-Iron, and 5 or 6000 Staves; which it is feared is chiefly Lost.

Monday last, a Special Court was held here, when Thomas Hopgood was convicted of Stealing a considerable Number of Guineas, Pistoles, Johannes, &c. and was burnt in the Hand with the initial Letter of the Word THIEF. Several Women, who were so far concerned with him as to prompt him on, and receive Part of the Money, were Ordered to give large Securities for their good Behaviour, or leave the Province in a few Days.

On the 8th Instant, Michael Peck was executed at Frederick-Town, for the Murder of Mr. George Jacob Poe, in July last.

We mentioned in our Gazette of the 23d of last Month, that a Child of Mr. Bearer's of this County, was terribly Bit by a Mad Dog. The Child, a little Boy not Three Years old, is since Dead: The Wounds were well nigh Healed; but on the 3d Instant, he was seized with the Hydrophobia, and continued in a most shocking Situation till the 7th, and then Died.

MEDICINES,

For the speedy Recovery of all such as are afflicted with any of the undermentioned Disorders.

RIVINGTON and BROWN,

Bookellers and Stationers in MARKET-STREET, PHILADELPHIA, have just imported the following most excellent and universally approved of Medicines, prepared very carefully by the eminent Dr. HILL, of London, viz.

For the Cure of the GOUT and RHEUMATISM, A NEW DISCOVERED MEDICINE, called, ELIXIR of BARDANA.

The BARDANA is a common innocent British Plant; its Virtues against the Rheumatism have always been known, and the Physicians of Edinburgh, who have distinguished themselves eminently in the Improvement of Medicine, now give it constantly and successfully in that Disease: The Author claims no Merit but that of extending its Use, adding its Efficacy, and reducing it to a Form in which it may be more conveniently taken. It is pleasant, safe, and effectual; and if we judge from the first Experience upon himself, and the happy Effects of its Use in a Number of other Cases in London, there is Ground to hope these Diseases will no longer so grievously torment Mankind. Price Seven Shillings a Bottle.

For the certain Cure of the SCURVY, LEPROSY, and all Obstinate Disorders of the SKIN, THE ESSENCE OF WATER-DOCK.

The Virtues of which are such, as to cure the most inveterate Degrees of the Scurvy; it not only clears the Skin of all Breakings out, but mends the Constitution. Persons afflicted with the Scurvy are subject to have bad Stomachs, and to be miserably low-spirited, and many have these Complaints, not knowing that the Scurvy is the Cause. The Medicine takes off the Faintness, creates an Appetite and Digestion immediately, clears the Skin, and prevents future Eruptions. Price 7 shillings a Bottle.

The most successful Medicine that ever was used for the effectual Cure of the GRAVEL and STONE; called,

The Tincture of Golden Rod.

This Medicine has been found very excellent in preventing the Gravel from concreting to Stone, and discharging it without Pain; it will bring away all Gravel as fast as it is deposited in the Kidneys, and never suffers it to lodge or form Stones again; and it has been found by Experience to cure Mrs. Sibbers's, and all other Medicines used in dissolving Stones. Price 9 shillings a Bottle.

For the Cure of all NERVOUS DISORDERS, FITS, HEAD-ACHS, LOW-SPIRITS, CONFUSED THOUGHTS, VAPOURS and MELANCHOLY; A MEDICINE CALLED,

The Genuine Tincture of VALERIAN.

It is a pleasant Cordial, and enlivening Medicine, it clarifies the Spirits, cures Wanderings of the Mind, all Kinds of Convulsions and Hysterick Complaints, Elipses and Palsies in all their Stages. Also it is excellent in Sickness of the Stomach, and in Flatulencies, Obstructions, and the convulsive Asthma. Price 6 shillings a Bottle.

Also of the above RIVINGTON and BROWN may be had the following POWDERS.

SEXTON'S POWDER,
For the certain Cure of the SMALL-POX and MEASLES.

This Powder, from the incontestible Proofs of Success in Families of the greatest Distinction and Reputation, makes it almost needless to mention its superior Excellence to the Cure of that dreadful Distemper the Small-pox; which by this Medicine is rendered no more dangerous than any common Eruption, being possessed with that specific Virtue, as to destroy the Malignancy of the poisonous Matter, and discharging it by gentle Perspiration, which, from an over Quantity, occasions all the dangerous Attendants of the Disease; it helps Nature, by throwing out the virulent or peccant Matter from the internal Viscera to the external Parts, kindly promoting a due Maturation (so difficult to be obtained by the common Methods of Practice) and entirely prevents the secondary Fever, and with the greatest Certainty cures most Fevers in a short Time, and is withal so innocent as to be given to Children in the Month, without the least Hazard or ill Effect by any Violence of Operation. These Powders have saved the Lives of many Thousands; are in the utmost Esteem in Europe, and have been greatly used in recovering Negroes in the West-Indies. Price Twelve Shillings for a Quantity sufficient for the Recovery of a single Patient.

Dr. JAMES'S POWDER FOR FEVERS.

This Powder, if taken agreeable to the Directions, will remove any continual Acute Fever in a few Hours, though attended with Convulsions, Lightheadedness, and the worst Symptoms, but if taken at the Beginning of a Fever, the Dose is generally sufficient to perform a Cure. It is likewise a most effectual Remedy for all internal Inflammations, Pleuritis, Quinsies, Acute Rheumatisms, and the Lowness of Spirits, and Uneasiness proceeding from latent Fevers, which are generally mistaken for Vapours and Hysterics. And a single Dose remarkably stops the Progress of a Cold, and certainly prevents the ill Consequences arising from that very common Disorder, the Source of almost all Distempers. Price Six Shillings for a Paper containing two Doses.

Likewise at the same Store is sold, Several Sorts of perfumed Waters, Smelling Bottles, Court Plaster, Tooth Powder and Brushes, and an elegant Assortment of Jewelry and Trinkets.
